

Vertical Pressure Leaf Filter

Features

- Perfect sealed
- Low space and more filtration rate

Designed for PLC automation

- Auto discharge of filtered cake
- Filtration areas upto 120 M² in single housing
- Low pressure drop across the leaves

Applications

- Edible Oils
- Pharmaceuticals
- Chemicals
- Bio Fuels
- Beverages
- Foods

Construction Features

- **Design Code:** ASME SEC. VIII DIV I
- **MOC of Housing:** Carbon Steel or Stainless Steel (as per buyers preference)
- **MOC of filter elements:** Stainless Steel
- **Design Temperature:** Upto 160°C
- **Design Pressure:** 7 Kg/cm²
